

Offer Extended on Complete FLI Imaging Systems!

The ProLine PL16803 sets the standard in key performance areas that include: Download Speeds, Cooling, Low Noise Operation, Anti-Ghosting Technology, Linearity and Image Quality.

ProLine download speeds are FAST! Unlike competitive brands ProLine does not lower bit depth to achieve high speed downloads. Camera Includes: Kodak KAF-16803 sensor, professional grade Uniblitz 65 mm shutter, bullet-proof FLI cooling, superior frame quality and two 16-bit download speeds (8 MHz & 1 MHz)

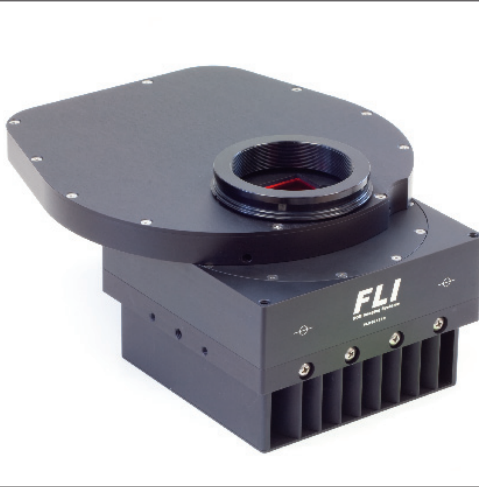

Package #2 includes LRGB filters!
