As IDEX Health & Science concentrates strategic focus on life science OEM applications, we have made the decision to realign our product offerings.

The realignment includes the discontinuing sale of and service as of May 3<sup>rd</sup>, 2024, for our non-life science [FLI](#) cameras and all filter wheels. We will continue to offer our life science application cameras through [IDEX Health & Science](#). Our goal is to ensure a seamless transition for our colleagues and customers.

We want to thank the Astronomy community for their phenomenal support of FLI over the years. If FLI becomes aware of another company willing and able to service FLI legacy cameras, we will notify our customers.

Thank you.
